

UV GULLAS
COLLEGE OF MEDICINE

STUDY MBBS (MD) IN PHILIPPINES

BEST CHOICE
FOR INDIAN STUDENTS

Name: Republic of the Philippines

Government: Republic

Capital: Manila

Population: 107,668,231*

Language: Filipino (Tagalog), English

Currency: Philippine Peso

Area: (300,000 Square Kilometers)

Religion: Christian

Country Code: +63

ABOUT PHILIPPINES

Swayed away culturally and geographically from the rest of the countries in south East Asia, the conglomerate of more than 7000 Islands, Philippines, the green archipelago is best known for its pristine beaches.

Manila, the capital of the republic of Philippines has a mix of Asian, Spanish and Middle Eastern cultures. Up north of Philippines, one can experience the nature at it best while discovering the vast and ancient rice terraces of Banaue. Coming south, one can visit the rumbling slopes of Taal Volcano and the emerald crater lakes of Luzon. A memorable trip to the tell – tale white sands of the beaches can be enjoyed with the world class diving through the white corals of Malapascua Islands and the wrecks of world war II off Coron.

CEBU CITY

Cebu city is known as the
“QUEEN CITY OF THE
PHILIPPINES” and the
second economically
developed city in the
Philippines.

It is also an
oldest city of Indian Chola
dynasty. Cebu city is a center
of commerce, trade, education
& Foreigner friendly city. It is
one the most preferred city by
Foreigners.

Advantage of Studying MBBS in Philippines

High FMGE / MCI Screening Test Passing Percentage:

For more than 7 years, students graduating from Philippines have been having the highest FMGE pass percentage.

High quality of imparting of education in most of the Philippines Universities and the foreigner friendly Filipinos make it very comfortable for students to enjoy the best, safest and homely atmosphere for them to excel in their academics.

BEST CHOICE FOR INDIAN STUDENTS

Similar Climate to that of India:

The Philippines has a tropical maritime climate which is similar to India. The three main seasons are summer, rainy and winter.

The average temperature is around 26.6°C.

As it is tropical climate students do not have to adjust to the climate for any medical conditions.

Similar diseases:

As the climate is same, the diseases are also same and therefore, the students are taught about same / similar diseases which are found in India.

This means that the students will have better clinical exposure of diseases in India.

No language problem:

94% population in the Philippines speak English and it is the 3rd largest English-speaking country in the world.

The biggest advantage of studying MBBS in Philippines as students can communicate with patients fluently unlike in non-English speaking country for better clinical exposure.

Good Clinical Training:

Medical education in Philippines is considered to provide excellent clinical exposure. Students will have mandatory clerkship training in both government & private hospitals to have excellent clinical skills at all categories of practice.

R&D in Medicine:

Doctor of Medicine (M.D) program in Philippines University provides huge opportunity for training and publishing paper & journals in medical research & development for students, which gives a bright scope in their carrier.

Gateway to PG in USA & International Job opportunities:

Philippines are the largest supplier of trained nurses & doctors to USA & several other countries. Strong Culture of giving USMLE for Post-graduate residency & practice.

Philippine universities are listed in ECFMG & California Board of Medicine for licensing.

Globally recognized degree has a wide scope of international job opportunities.

STUDENT'S TESTIMONIALS

Heavenlin Y.B
M.D. Final Year
Tenkasi, Tamilnadu

My dream was to be a doctor but I could not manage to get a seat in India. I came across Neolife International Education who helped me to get admission in UV Gullas College of Medicine, Cebu. I am now in my 2nd year and I am ever grateful to Neolife....

UV Gullas – Cebu city is the safest place to study abroad for those who are from India as it is very much of an Asian cultured society of its own. When I left India as a young girl with medical aspiration to Philippines, I found UV Gullas Medical College campus at Cebu city as almost same as comfortable as my homeland India.

Devi
Pre – Medicine
Hyderabad, Telangana

I am glad to study in UV Gullas Medical College. I feel very safe as Filipino people are very friendly and it makes me feel as am in my homeland India. It's comfortable to stay inside our campus hostel with provision of all varieties of Indian food Education is excellent with good Infra – Structure. I recommend UVGCM – the best choice for Indian students.

Franklin Raja A
M.D. Final Year
Tiruchy, Tamilnadu

I have joined UV Gullas in 2018. Cebu is the safest place and UV Gullas college and the in – Campus hostel is a home away from home. We were all personally taken care of by Dr. Herald & his team and we adjusted very well especially with the friendly people in Philippines and the professors in the college. I am certain that my dream of becoming a doctor will come true, with the support of Neolife.

Dr. Sherwin John
M.D
Tanjore, Tamilnadu

I am from a very small village near Vijayawada. My dream is to become a cardiac surgeon but I could not get seat in India due to reservation. Then I googled for affordable colleges in abroad, Students reviews for UV Gullas College of Medicine made me choose this college and I approached Dr. Herald and got my admission. Now I am happy to be a student of UV Gullas.

Daniella. L
Pre – Medicine
Chennai, Tamilnadu

Neolife International Education has truly made the dreams of mine & many other students to come true. I wouldn't have found any better university or destination to become a doctor other than UV Gullas Medical College in Philippines. Been a Medical Graduate at UV Gullas Medical College is the highlight of my life.
